

Court Blocks Bradley Return For Six Months

A Municipal Court judge in Los Angeles has granted Edgar Eugene Bradley a six-month continuance in his fight against extradition to Louisiana.

District Attorney Jim Garrison has charged Bradley with conspiracy to murder President John F. Kennedy.

Judge Joan Dempsey Klein ordered Bradley, 42, of North Hollywood, to appear Sept.

30 for an extradition hearing on a fugitive warrant from Louisiana.

BRADLEY's attorney, George Jensen, asked for the continuance because California Attorney General Thomas Lynch has not yet ruled on the legality of the extradition papers.

Garrison contends he has evidence that Bradley discussed the assassination "in detail" with other alleged plotters.

Bradley says the case is a

matter of mistaken identity. He says he learned of the 1963 assassination near the end of a bus ride to El Paso from Oklahoma.

Bradley, West Coast representative of radio evangelist Dr. Carl McIntire, says he will fight extradition "tooth and nail."

MEANWHILE, William Gurvich, former chief investigator for Garrison, acknowledged that he has a copy of the master file of the assassination probe through June of 1967.

Garrison has charged Gurvich, a private investigator, with theft of property worth \$19 from his office.

Gurvich said yesterday the property was a copy of the probe file, but he has never stolen anything "in my life and Mr. Garrison knows it."

"NINE MONTHS ago I stated publicly and under oath that I had possession of this file."

Garrison's delay in bringing "such an absurd charge was to us belated awareness that a so-called master file on the Kennedy probe is not worth more than \$19."
